

PRODUCT DATA AND DATA SHEET

Product Name: UY2 Connector – 2 Wire Yellow
UY3 Connector – 3 Wire Red

Product Code: TM-2301 (2 wire), TM-2303 (3 wire)

Description: Connectors designed to quickly connect two (2) or three (3) telecom conductors. Insert the un-stripped wires, and crimp the cap of the connector and this will complete the connection

Features:

- Contact pins are tin plated brass
- Connectors are filled with dimethyl silicone fluid insulation
- Bodies are made from polycarbonate plastic that resists splitting, rough handling and solvents
- Used to join solid copper wires
- Terminating data cables and phone cables
- Sold in packs of 100 pieces per bag
- Accommodates 19 to 22 AWG solid/stranded
