PRODUCT DATA AND APPLICATION SHEET

PRODUCT NAME **Metal Glands**

PRODUCT CODE   MG20, MG25, MG32, MG40, MG50, MG63

DESCRIPTION   Metal Glands – Unarmored IP68

FEATURES

- Prestigious IP68 rating
- Innovative 'Camera Shutter' principle securing the cable
- Superior cable range with each range
- Advanced corrosion protection with nickel plated brass
- Effective plastic inserts to ensure complete insulation
- High grade Neoprene seal ensuring comprehensive tightness
- Implementation of metric thread to satisfy Australian requirements
- PG thread for motors etc. from Europe
- Locknuts supplied with glands for consumer convenience

WARRANTY

- 5 Years

APPLICATIONS

- This Product is recommended for residential and commercial environments

INSTALLATION

- Pass the cable through the assembled gland and tighten gland nut until cable is secured. (No need to disassemble the gland)
- Suitable for unarmored PVC, XLPE and other synthetic cables
