

PRODUCT DATA AND DATA SHEET

Product Name: Infrared Motion Sensor

Product Code: ST40

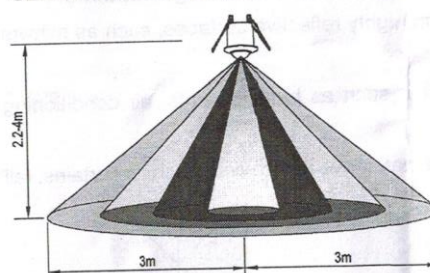

Description: The ST40 product adapts good sensitivity detector and integrated circuit. The ST40 gather automatism, convenience, safety, saving-energy and practical functions. The ST40 can identify day and night automatically.

Features:

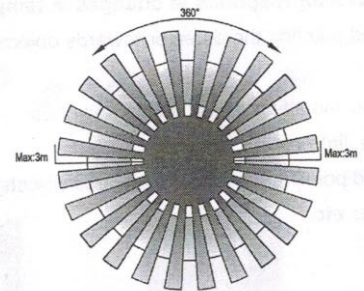

- Power Source: 220-240V/AC
- Power Frequency: 50/60Hz
- Time Delay: Min 10sec to 3 secs
Max 15min to 2 min
- Rated Load Max 400W (Florescent) to 800W (Incandescent)
- Detection Range: 360°
- Detection Distance: 6m max (<24°C)
- Working Temperature: -20° +40°C
- Working Humidity: <93%RH
- Power Consumption: approx. 0.5W
- Installation Height: 2.2-4M
- Detection Moving Speed: 0.6-1.5m/s
- 40mm cutout

SENSOR INFORMATION:

Height of installation: 2.2-4m

Detection Distance: Max.6m
